2017 - 2018

Secondary School Of Certificate (72.0%)

## Project

### Nxt Trendz ( ECommerce Clone - Amazon, Flipkart)

[project1\\_link](#)

**Technologies used :** React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Implemented Nxt Trendz application which is a clone for ECommerce applications like Amazon, Flipkart where users can login and can see list of products with search, filters, sort by, etc..

- Implemented Different pages and routes for Login, Products, Product details using React Router components Route, Switch, Link, props, state, lists, event handlers, form inputs.
- Authenticating and authorizing users by taking username, password and doing login POST HTTP API Call and implementing filters by sending them as query parameters to product api calls.
- Persisted user login state by keeping jwt token in local storage, Sending it in headers of further api calls to authorize the user.

## Todos Application

[project2\\_link](#)

**Technologies used :** HTML, CSS, JS, Bootstrap

A comprehensive todo management tool designed to enhance productivity.

- User-friendly interface with HTML, CSS, and Bootstrap for ease of use.
- Effortless task management through JavaScript-based CRUD operations with dynamic UI updates.
- Your tasks are always safe with local storage methods to ensure task persistence.

## Emoji Game

[project3\\_link](#)

**Technologies used :** React JS, CSS

Created an exciting memory game with unique emoji clicks and randomized placement.

- Showcased React skills in displaying emojis, updating game states, and implementing event listeners.
- Achieved a polished look with CSS.

---

## TCS iON Career Edge - Young Professional

For completion of a project of creating a hotel's booking page by using technologies "HTML", "CSS".
